

Sabotina S&G Bill of Materials

PLYWOOD & LUMBER: All plywood is 1/4" thick or the nearest corresponding thickness in millimeters. A marine-grade (MAR) panel is best, but an AB-EXT grade of fir will also suffice. Solid wood members can be any mahogany of good grade, 1" nominal stock (often surfaced to 3/4" actual thickness) re-sawn to thicknesses and widths noted. Two sheets of 4' x 8' plywood, and a half-panel 4' square are required.

SABOTINA STITCH-&GLUE MATERIALS	
ITEM	QUANTITY
Stitching wire	Approximately 50'
Epoxy resin-hardener	1.2 to 1.5 gal.
Fiberglass cloth tape	50 yards 3" x 6 oz.
Wood Flour -OR- Microspheres Filler Silica Filler	1 lb. 1 lb. 1 lb.
